

# UNITED WAY IMPACT SPOTLIGHT

**54,887 individuals** were served by United Way of Racine County-funded programs from July 1, 2022–March 31, 2023.

**39%** of clients served are under age 18.

**73%** of clients served are at or below the ALICE threshold.

**6,432** individuals connected to support systems through United Way-funded health programs are now able to identify healthy coping skills and make healthy choices. This has led to a higher life satisfaction.

**2,618** students developed career-ready soft skills, making them better job-seeking candidates. **258** of those students are in programming at our three community schools.

**216** individuals obtained their high school credentials, helping them advance to their next phase of life. **73** of those individuals live in a community school neighborhood.

**801** individuals received over **44,800** nights of emergency shelter, ensuring they are in a safe and secure environment.
